

Message from the Director

Western Regional Members,

Tilly vom Trocken Bach

Well, the holiday season has begun. Thanksgiving is over, hunting season is in full swing for most of our members and the testing has concluded for the year. To those of you who participated in the WR tests this year we thank you and hope that your experience was both pleasurable and successful. Every effort was made to ensure both.

This time of year is busy for the Western Region Board of Directors. Dates for the 2019 Test Schedule need to be submitted by mid-December. Be sure to submit your testing needs for need year.

Nominations for Position #2 and Position #3 on the WR Board of Directors are open. Details regarding the nomination process and Board Member responsibilities are available later in the publication.

We hope your hunting season is going well and your dogs are working perfectly. Hopefully you are finding birds; we actually are finding good numbers here in Walla Walla.

Enjoy your hunting season,
Frank O'Leary
Western Regional Director
